

time it has produced thousands of bluegills, channel catfish, largemouth bass, striped bass, and hybrid striped bass fingerlings. These fish are used to stock over 500,000 acres of public waters in the State of Alabama and they are available to over 530,000 licensed sport anglers.

In addition, the Marion Fish Hatchery has provided over 1.3 million gulf striped bass fry to 3 Federal and 2 neighboring State hatcheries and over 270,000 gulf striped bass fingerlings to support Federal and State programs in the State of Florida.

Finally, the State of Alabama has spent over \$2 million on facility improvements and renovations at the Marion National Fish Hatchery since it assumed operational control. The Alabama Game and Fish Division has stated that "the Division will continue to utilize the facility for the production of fish to enhance the freshwaters of Alabama and the thousands of people who enjoy fishing these waters."

I urge an "aye" vote on this legislation which has been endorsed by both the Clinton administration and the Governor of the State of Alabama, the Honorable Fob James, Jr.

2002 WINTER OLYMPIC GAMES FACILITATION ACT

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3907) to facilitate the 2002 Winter Olympic Games in the State of Utah at the snowbasin ski area, to provide for the acquisition of lands within the Sterling Forest Reserve, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3907

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—SNOWBASIN SKI AREA

SEC. 101. SHORT TITLE.

This title may be cited as the "2002 Winter Olympic Games Facilitation Act".

SEC. 102. FINDINGS AND DETERMINATION.

(a) FINDINGS.—The Congress finds that—

(1) in June 1995, Salt Lake City, Utah, was selected to host the 2002 Winter Olympic Games, and the Snowbasin Ski Resort, which is owned by the Sun Valley Company, was identified as the site of six Olympic events: the men's and women's downhill, men's and women's Super-Gs, and men's and women's combined downhill;

(2) in order to adequately accommodate these events, which are traditionally among the most popular and heavily attended at the Winter Olympic Games, major new skiing, visitor, and support facilities will have to be constructed at the Snowbasin Ski Resort on land currently administered by the United States Forest Service;

(3) while certain of these new facilities can be accommodated on National Forest land under traditional Forest Service permitting authorities, the base area facilities necessary to host visitors to the ski area and the Winter Olympics are of such a nature that they should logically be located on private land;

(4) land exchanges have been routinely utilized by the Forest Service to transfer base area lands to many other ski areas, and the Forest Service and the Sun Valley Company have concluded that a land exchange to transfer base area lands at the Snowbasin Ski Resort to the Sun Valley Company is both logical and advisable;

(5) an environmental impact statement and numerous resource studies have been completed by the Forest Service and the Sun Valley Company for the lands proposed to be transferred to the Sun Valley Company by this title;

(6) the Sun Valley Company has assembled lands with outstanding environmental, recreational, and other values to convey to the Forest Service in return for the lands it will receive in the exchange, and the Forest Service has identified such lands as desirable for acquisition by the United States; and

(7) completion of a land exchange and approval of a development plan for Olympic related facilities at the Snowbasin Ski Resort is essential to ensure that all necessary facilities can be constructed, tested for safety and other purposes, and become fully operational in advance of the 2002 Winter Olympics and earlier pre-Olympic events.

(b) DETERMINATION.—The Congress has reviewed the previous analyses and studies of the lands to be exchanged and developed pursuant to this title, and has made its own review of these lands and issues involved, and on the basis of those reviews hereby finds and determines that a legislated land exchange and development plan approval is necessary to meet Olympic goals and timetables.

SEC. 103. SNOWBASIN LAND EXCHANGE.

(a) PURPOSE AND INTENT.—The purpose of this section is to authorize and direct the Secretary to exchange 1,320 acres of federally-owned land within the Cache National Forest in the State of Utah for lands of approximately equal value owned by the Sun Valley Company. It is the intent of Congress that this exchange be completed without delay within the period specified by subsection (d).

(b) DEFINITIONS.—As used in this section:

(1) The term "Sun Valley Company" means the Sun Valley Company, a division of Sinclair Oil Corporation, a Wyoming Corporation, or its successors or assigns.

(2) The term "Secretary" means the Secretary of Agriculture.

(c) EXCHANGE.—

(1) FEDERAL SELECTED LANDS.—(A) Not later than 45 days after the final determination of value of the Federal selected lands, the Secretary shall, subject to this section, transfer all right, title, and interest of the United States in

(B) The lands referred to in subparagraph (A) are certain lands within the Cache National Forest in the State of Utah comprising 1,320 acres, more or less, as generally depicted on the map entitled "Snowbasin Land Exchange—Proposed" and dated October 1995.

(2) NON-FEDERAL OFFERED LANDS.—Upon transfer of the Federal selected lands under paragraph (1), and in exchange for those lands, the Sun Valley Company shall simultaneously convey to the Secretary all right, title and interest of the Sun Valley Company in and to so much of the following offered lands which have been previously identified by the United States Forest Service as desirable by the United States, or which are identified pursuant to subparagraph (E) prior to the transfer of lands under paragraph (1), as are of approximate equal value to the Federal selected lands:

(A) Certain lands located within the exterior boundaries of the Cache National Forest in Weber County, Utah, which comprise approximately 640 acres and are generally depicted on a map entitled "Lightning Ridge Offered Lands", dated October 1995.

(B) Certain lands located within the Cache National Forest in Weber County, Utah, which comprise approximately 635 acres and are generally depicted on a map entitled "Wheeler Creek Watershed Offered Lands—Section 21" dated October 1995.

(C) Certain lands located within the exterior boundaries of the Cache National Forest in Weber County, Utah, and lying immediately adjacent to the outskirts of the City of Ogden, Utah, which comprise approximately 800 acres and are generally depicted on a map entitled "Taylor Canyon Offered Lands", dated October 1995.

(D) Certain lands located within the exterior boundaries of the Cache National Forest in Weber County, Utah, which comprise approximately 2,040 acres and are generally depicted on a map entitled "North Fork Ogden River—Devil's Gate Valley", dated October 1995.

(E) Such additional offered lands in the State of Utah as may be necessary to make the values of the lands exchanged pursuant to this section approximately equal, and which are acceptable to the Secretary.

(3) SUBSTITUTION OF OFFERED LANDS.—If one or more of the precise offered land parcels identified in subparagraphs (A) through (D) of paragraph (2) is unable to be conveyed to the United States due to appraisal or other reasons, or if the Secretary and the Sun Valley Company mutually agree and the Secretary determines that an alternative offered land package would better serve long term public needs and objectives, the Sun Valley Company may simultaneously convey to the United States alternative offered lands in the State of Utah acceptable to the Secretary in lieu of any or all of the lands identified in subparagraphs (A) through (D) of paragraph (2).

(4) VALUATION AND APPRAISALS.—(A) Values of the lands to be exchanged pursuant to this section shall be equal as determined by the Secretary utilizing nationally recognized appraisal standards and in accordance with section 206 of the Federal Land Policy and Management Act of 1976. The appraisal reports shall be written to Federal standards as defined in the Uniform Appraisal Standards for Federal Land Acquisitions. If, due to size, location, or use of lands exchanged under this section, the values are not exactly equal, they shall be equalized by the payment of cash equalization money to the Secretary or the Sun Valley Company as appropriate in accordance with section 206(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(b)). In order to expedite the consummation of the exchange directed by this section, the Sun Valley Company shall arrange and pay for appraisals of the offered and selected lands by a qualified appraiser with experience in appraising similar properties and who
